INDEPENDENT AUDITOR'S REPORT

Ozarka College Legislative Joint Auditing Committee

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities and the discretely presented component unit of Ozarka College (College), an institution of higher education of the State of Arkansas, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the College's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Ozarka College Foundation, Inc., which represents 100% of the assets and revenues of the discretely presented component unit. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Ozarka College Foundation, Inc., is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. The financial statements of the Ozarka College Foundation, Inc. were not audited in accordance with *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the discretely presented component unit of the College as of June 30, 2020, and the respective changes in financial position, and where applicable, cash flows thereof for the year ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Prior Year Comparative Information

We have previously audited the College's 2019 financial statements, and we expressed unmodified opinions on the respective financial statements of the business-type activities and the discretely presented component unit in our report dated May 6, 2020. In our opinion, the comparative information presented herein as of and for the year ended June 30, 2019, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, certain information pertaining to postemployment benefits other than pensions, and certain information pertaining to pensions on pages 06-08, 40, and 41-42 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the College's basic financial statements. The Schedule of Selected Information for the Last Five Years (Schedule 1), is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The Schedule of Selected Information for the Last Five Years has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 18, 2021 on our consideration of the College's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the College's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control over financial reporting and compliance.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

INDEPENDENT AUDITOR'S REPORT

Ozarka College Legislative Joint Auditing Committee

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to the financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities and the discretely presented component unit of Ozarka College (College), an institution of higher education of the State of Arkansas, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the College's basic financial statements, and have issued our report thereon dated May 18, 2021. Our report includes a reference to other auditors who audited the financial statements of the Ozarka College Foundation, Inc., as described in our report on the College's financial statements. The financial statements of the Ozarka College Foundation, Inc. were not audited in accordance with *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the College's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, we do not express an opinion on the effectiveness of the College's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the College's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the College's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of the state constitution, state laws and regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

We noted a certain matter that we reported to management of the College in a separate letter dated May 18, 2021.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the College's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the College's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

MANAGEMENT LETTER

Ozarka College Legislative Joint Auditing Committee

STUDENT ENROLLMENT DATA – In accordance with Ark. Code Ann. § 6-60-209, we performed tests of the student enrollment data for the year ended June 30, 2020, as reported to the Arkansas Division of Higher Education, to provide reasonable assurance that the data was properly reported. The enrollment data reported was as follows:

	Summer II Term 2019	Fall Term 2019	Spring Term 2020	Summer I Term 2020
Student Headcount Student Semester	167	1,171	1,068	270
Credit Hours	785	11,232	10,189	1,688

During our review, nothing came to our attention that would cause us to believe that the student enrollment data was not substantially correct.

This letter is intended solely for the information and use of the Legislative Joint Auditing Committee, the governing board, College management, state executive and oversight management, and other parties as required by Arkansas Code, and is not intended to be and should not be used by anyone other than these specified parties. However, pursuant to Ark. Code Ann. § 10-4-417, all reports presented to the Legislative Joint Auditing Committee are matters of public record and distribution is not limited.

OZARKA COLLEGE Management Discussion and Analysis (Unaudited)

Overview of Financial Statements and Financial Analysis

Financial statements for Ozarka College for the fiscal year ended June 30, 2020 were prepared according to requirements set out in GASB No. 34 and 35. A comparative analysis is presented from the prior year with the date of June 30, 2019 displayed in a separate column. The data presented includes the Statement of Net Position, the Statement of Revenues, Expenses and Changes in Net Position, and the Statement of Cash Flows.

Statement of Net Position

The Statement of Net Position is presented as of June 30, 2020, and reflects the assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position of Ozarka College. The purpose of the statement is to present to the readers of the financial statements a fiscal snapshot as of the end of the fiscal year. Current assets and liabilities are distinguished from non-current assets and liabilities. The statement provides a picture of net position (assets and deferred outflows minus liabilities and deferred inflows) and their availability for expenditure by the institution.

A summarized Statement of Net Position at June 30, 2020 is as follows:

Assets:	June 30, 2020	June 30, 2019
Current Assets	\$ 5,154,735	\$ 4,250,580

Total Net Position	\$8,149,537	\$7,782,206

OZARKA COLLEGE Management Discussion and Analysis (Unaudited)

The transition to on-line delivery during the Spring and Summer Semesters led to costs savings for budgeted expenditures because projects and instructional activities were altered or postponed due to the uncertainty caused by the Covid pandemic. In addition, travel bans were imposed and planned professional development conferences were cancelled or moved to a virtual format. These changes resulted in budget savings for the year and an increase to the cash balance causing an overall increase in the total assets.

The increase in noncurrent liabilities resulted from a loan obtained to purchase a building in Ash Flat to be used for a technical education center.

Statement of Revenues, Expenses and Changes in Net Position

The purpose of this statement is to present revenues received and expenses paid, operating and non-operating, and any other revenues, expenses, gains and losses. Operating revenues include activities that have the characteristics of exchange transactions, such as reimbursements from various services, federal and state grants, and auxiliary enterprises. Non-operating revenues include activities that have the characteristics of non-exchange transactions, such as gifts and contributions, and other revenue sources that are defined as non-operating revenues by GASB No. 34, such as state appropriations, federal and state grants and investment income.

A summarized Statement of Revenues, Expenses and Changes in Net Position at June 30, 2020 is as follows:

Operating Revenues:	June 30, 2020	June 30, 2019
Student tuition and fees (net of scholarship allowances)	\$ 1,186,243	\$ 1,045,321

Net Position – End of Year	\$ 8,149,537	\$ 7,782,206

OZARKA COLLEGE Management Discussion and Analysis (Unaudited)

The increase in total operating revenues was due to increases in both student tuition and fees and grant funding. Although the total number of full-time equivalent students remained fairly constant, an adjustment to the fee structure for aviation practicums and program fees resulted in additional income from tuition and fees.

The increases in operating expenses were a result of several factors. The increase in personal services was from the addition of new faculty and student support staff. The increase in scholarships and fellowships was from approximately \$400,000 in direct aid to students as a result of the funding received from the CARES Act Higher Education Emergency Relief Funds. The supplies and services line item increased for the equipment and supplies needed to transition to on-line instruction due to the Covid pandemic and to renovate and equip the space for an automotive/diesel shop in the Ash Flat Technical Center.

Net non-operating revenues increased as a result of the funding received from the CARES Act for direct payment to students, a local grant received to combat opioid use, and increased sales tax revenues.

A grant from the Arkansas Department of Aeronautics for the purchase of instructional equipment and contributions received from the Ozarka College Foundation to purchase equipment needed for new instructional programs led to the increase in capital grants.

Statement of Cash Flows:

The statement of Cash Flows provides detailed information about the cash activity of the College during the year. The statement is divided into the following five sections:

- Operating Activities provides detail of the operating cash flows and the net cash used by operating activities for the College.
- Non-Capital Financing Activities reflect cash received and spent for non-operating financing activities.
- Investing Activities cash flows related to the purchase, proceeds, and interest received from investing activities.
- Capital and Related Financing Activities provides specific information on the cash used for the acquisition and construction of capital and related items.
- Change in Cash reconciles the net cash used to the operating income or loss reflected on the Statement of Revenues, Expenses and Changes in Net Position.

A summarized Statement of Cash Flows at June 30, 2020 is as follows:

Cash Provided (Used) By:	June 30, 2020	June 30, 2019
Operating activities	\$ (8,107,792)	\$ (7,379,832)
Noncapital financing activities	9,014,556	8,218,793

Investing activities	7,867	8,235
Net Change in Cash	384,384	368,122
Cash – Beginning of Year	3,655,323	3,287,201
Cash – End of Year	\$ 4,039,707	\$ 3,655,323

Economic Outlook

On March 11, 2020, the Governor of Arkansas issued Executive Order 20-03 declaring an emergency and ordered the Arkansas Department of Health to take actions to prevent the spread of coronavirus disease 2019 (COVID-19). The extent of the impact of COVID-19 on our operations and financial statements for future reporting periods will depend on certain developments, including the duration and speed of the outbreak and revenue collections – all of which are uncertain and cannot be predicted. The financial impact of COVID-19 to Ozarka College is uncertain at this time.

NOTE 1: Summary of Significant Accounting Policies

Reporting Entity

The State Board for Vocational Education was created under the provisions of Act 328 of 1957 for the purpose of establishing in various sections of Arkansas, secondary level schools for specializing in vocational technical training. Efforts of the agencies were to be directed toward specialized training of students of high school age and as a service to the community in the area of adult education.

Ozarka Vocational Technical School, an institution of higher education of the State of Arkansas, began operations in July 1975. Effective July 1, 1991, the College's name was changed to Ozarka Technical College under the provisions of Ark. Code Ann. § 6-53-301. The College is now under the jurisdiction of the Arkansas Higher Education Coordinating Board. The governing body is the Board of Trustees comprised of seven members. Effective July 1, 1999, the College's name was changed to Ozarka College.

The Ozarka College Foundation, Inc., (Foundation) is a legally separate, tax-exempt component unit of Ozarka College (College). The Foundation acts primarily as a fund-raising organization to supplement the resources that are available to the College in support of its programs. The Foundation board is self-perpetuating and consists of friends of the College. As of June 30, 2020, there were 19 board positions filled of the 25 allowed by the Foundation by-laws. Although the College does not control the timing or amount of receipts from the Foundation, the majority of resources, or income thereon, that the Foundation holds and invests, is restricted to the activities of the College by the donors. Because these restricted resources held by the Foundation can only be used by, or for the benefit of, the College, the Foundation is considered a component unit of the College and is discretely presented in the College's financial statements.

During the year ended June 30, 2020, the Foundation distributed \$98,500 and \$125,000 in cash and gifts to the College for both restricted and unrestricted purposes. Gifts consisted of non-operating gifts of \$80,149 and capital gifts of \$44,851 as reflected on the Statement of Revenues, Expenses, and Changes in Net Position. Complete financial statements for the Foundation can be obtained from the Finance Office, Ozarka College, Post Office Box 10, Melbourne, AR 72556.

The Foundation's financial information in the College's financial statements has been presented on the accrual basis of accounting in accordance with generally accepted accounting principles. No modifications have been made to the Foundation's financial information in the College's financial statements.

Financial Statement Presentation

In June 1999, the Governmental Accounting Standards Board (GASB) issued Statement no. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments.* GASB Statement no. 35, *Basic Financial Statements - and Management's Discussion and Analysis - for Public Colleges and Universities*, followed this in November 1999. The financial statement presentation required by GASB no. 34 and no. 35 provides a comprehensive, entity-wide perspective of the College's assets, liabilities, net position, revenues, expenses, changes in net position, cash flows, and replaces the fund-group perspective previously required.

NOTE 1: Summary of Significant Accounting Policies (Continued)

Financial Statement Presentation (Continued)

In June 2011, the GASB issued Statement no. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position.* This statement provides financial reporting guidance for deferred outflows of resources and deferred inflows of resources. The use of net position as the residual of all other elements presented in a statement of financial position has also been identified. This statement amends the net asset reporting requirement in Statement no. 34 and other pronouncements by incorporating deferred outflows of resources and deferred inflows of resources into the definitions of the required components of the residual measure and by renaming that measure as net position, rather than net assets.

In fiscal year 2016, the College implemented GASB Statement no. 72, *Fair Value Measurement and Application*. This Statement addresses accounting and financial reporting issues related to fair value measurements. The definition of fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This Statement provides guidance for determining a fair value measurement for financial reporting purposes and for applying fair value to certain investments and disclosures related to all fair value measurements. Further information can be found in Note 2.

Ozarka College implemented GASB Statement no. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, during fiscal year 2017-18. This statement replaces GASB no. 45. GASB Statement no. 75 established new standards for accounting and financial reporting of employer provided OPEB plans. This statement identifies methods and assumptions that are required to be used to project future benefit payments. Further information can be found in Note 10.

Basis of Accounting

For financial reporting purposes, the College is considered a special-purpose government engaged only in business-type activities. Accordingly, the College's financial statements have been presented using the economic resources focus and the accrual basis of accounting.

Under the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation is incurred. All significant intra-agency transactions have been eliminated.

Capital Assets and Depreciation

Land, buildings, improvements and infrastructure, software, equipment, and construction in progress are reported at cost or estimated historical cost if actual data is not available. Donated capital assets are reported at acquisition value when received. The College follows the State guidelines for equipment capitalization. Library holdings are valued at a rate per volume by categories. The rate per volume was derived from a publication of average costs.

Depreciation is computed using the straight-line method over the estimated lives of the assets, generally 15 to 30 years for buildings, 15 to 20 years for infrastructure and land improvements, 10 to 15 years for library holdings , and 3 to 7 years for software and equipment.

NOTE 1: Summary of Significant Accounting Policies (Continued)

Operating and Nonoperating Revenues

Operating revenues include activities that have characteristics of exchange transactions, such as student tuition and fees, most federal and state grants, and auxiliary enterprises.

Nonoperating revenues include activities that have the characteristics of non-exchange transactions, such as gifts and contributions, and other revenue sources that are defined as nonoperating revenues by GASB Statement no. 9 and GASB Statement no. 34. Such revenues include state appropriations, sales and use tax, Pell grants and other grants used exclusively for scholarships, and investment income.

Cash Equivalents

For purposes of the statement of cash flows, the College considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

Accounts Receivable

Accounts receivable consists of tuition and fee charges to students and auxiliary enterprises provided to students, faculty, and staff. Accounts receivable also includes amounts due from the Federal government, state and local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to the College's grants and contracts.

Investments

Investments, which consist of certificates of deposit classified as nonparticipating contracts, are stated at cost under the provisions of Statement no. 31 of the Governmental Accounting Standards Board.

Inventories

Inventories are valued at cost with cost being generally determined on a specific cost basis for the food service inventory.

Restricted/Unrestricted Resources

The College has no formal policy addressing which resources to use when both restricted and unrestricted net position are available for the same purpose. College personnel decide which resources to use at the time expenses are incurred.

Unearned Revenues

Unearned revenues include amounts received for tuition and fees prior to the end of the fiscal year but related to the subsequent accounting period.

NOTE 1: Summary of Significant Accounting Policies (Continued)

Compensated Absences Payable

Compensated absences payable represent the College's liability for unused annual leave, certain unused sick leave, and related matching costs at June 30, 2020. For presentation purposes only, employees eligible for retirement are included in the sick leave portion of the liability. Employees meeting the following criteria are eligible for retirement: (1) the employee is retiring from Ozarka College at the age of 55 or above, (2) the employee's actual age and actual number of years of service to Ozarka College at the time of retirement combine to a total of 75 or more, and (3) the employee is enrolled in health coverage through the College at the time of retirement.

NOTE 2: Public Fund Deposits and Investments

Cash deposits are carried at cost. The College's cash deposits at year-end are shown below:

	Carrying	Bank
	Amount	Balance
FDIC (Insured)	\$1,035,713	\$1,250,000
Collateralized:		
Collateral held by the pledging bank or pledging		
bank's trust department in the College's name	3,562,157	3,786,795
Total Deposits	\$4,597,870	\$5,036,795

The above deposits do not include cash on deposit in the state treasury or cash on hand in the amount of \$129,868 and \$150 for the year ended June 30, 2020, respectively. The above total deposits include certificates of deposit of \$688,181 reported as investments and classified as nonparticipating contracts.

NOTE 2: Public Fund Deposits and Investments (Continued)

Deposits with Trustee

The Federated U.S. Treasury Cash Reserves Fund

This fund operates as a "government money market fund" as defined in or interpreted under Rule 2a-7 of the Investment Company Act of 1940, as amended. Under normal conditions, this fund will invest its assets so that at least 80% of its net assets are invested in government securities that are collateralized fully by government securities.

Investments Measured at the NAV

Calculation of Net Asset Value – The Fund attempts to stabilize the NAV of its Shares at \$1.00 by valuing the portfolio securities using the amortized cost method. In addition, for regulatory purposes, the Fund calculates a market-based NAV per Share on a periodic basis. The Fund cannot guarantee that its NAV will always remain at \$1.00 per Share. The fund does not charge a front-end sales charge. Shares can be purchased, redeemed or exchanged any day the New York Stock Exchange is open.

Security Description	<u>Amount</u>
U.S. Treasury (2015 series bonds) (1)	\$ 113,128
U.S. Treasury (2013 series bonds) ⁽¹⁾	83,795
Total investments * measured at the NAV	\$ 196,923
* reported as deposits with trustee	

(1) Government Agencies and U.S. Treasury – Fixed-Income Securities. Fixed-income securities pay interest, dividends, or distributions at a specified rate. The rate may be a fixed percentage of the principal or may be adjusted periodically. In addition, the issuer of a fixed-income security must repay the principal amount of the security, normally within a specified time. Fixed-income securities provide more regular income than equity securities. However, the returns on fixed-income securities are limited and normally do not increase the issuer's earnings. This limits the potential appreciation of fixed-income securities.

A security's yield measures the annual income earned on a security as a percentage of its price. A Security's yield will increase or decrease depending upon whether it costs less (a "discount") or more (a "premium") than the principal amounts. If the issuer may redeem the security before its scheduled maturity, the price and yield on a discount or premium security may change based upon the probability of an early redemption. Securities with higher risks generally have higher yields.

The following describes the types of fixed-income securities in which the Fund principally invests:

U.S. Treasury Securities – are direct obligations of the federal government of the United States.

Government Securities – are issued or guaranteed by a federal agency or instrumentality acting under federal authority. Some government securities, including those issued by Ginnie Mae, are supported by the full faith and credit of the Unites States and are guaranteed only as to the timely payment of interest and principal.

NOTE 2: Public Fund Deposits and Investments (Continued)

Investments Measured at the NAV (Continued)

Other government securities receive support through federal subsidies, loans or other benefits, but are not backed by the full faith and credit of the United States. For example, the U.S. Treasury is authorized to purchase specified amounts of securities issued by (or otherwise make funds available to) the Federal Home Loan Bank System, Freddie Mac, and Fannie Mae in support of such obligations.

Some government agency securities have no explicit financial support, and are supported only by the credit of the applicable agency, instrumentality, or corporation. The U.S. government has provided financial support to Freddie Mac and Fannie Mae, but there is no assurance that it will support these or other agencies in the future.

Callable Securities – are certain U.S. Treasury or government securities in which the Fund invests are callable at the option of the issuer. Callable securities are subject to call risks.

NOTE 3: Income Taxes

The College is tax exempt under Internal Revenue Service code. It is also exempt from state income taxes under Arkansas law. Accordingly, no provision for income taxes is made in the financial statements.

NOTE 6: Retirement Plans

Teachers Insurance and Annuity Association/College Retirement Equities Fund (TIAA/CREF)

Plan Description. The College participates in TIAA/CREF, a defined contribution plan. The plan is a 403(b) program as defined by Internal Revenue Service Code of 1986 as amended, and is administered by TIAA/CREF. TIAA is an insurance company offering participants a traditional annuity with guaranteed principal and a specific interest rate plus the opportunity for additional growth through dividends. CREF is an investment company which offers a variable annuity. Arkansas law authorizes participation in the plan.

Funding Policy. TIAA/CREF has contributory and non-contributory plans. Contributory members contribute 6% of earnings to the plan. The College contributes 12% of earnings for all applicable employees. The participants' and the College's contributions for the year ended June 30, 2020 were \$43,835 and \$61,672, respectively.

Arkansas Teacher Retirement System

Summary of Significant Accounting Policies

Pensions: For purposes of measuring net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Arkansas Teacher Retirement System (ATRS) and additions to and deductions from ATRS fiduciary net position have been determined on the same basis as reported by ATRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

(a) General Information about the Pension Plan

Plan description: Eligible employees of Ozarka College are provided with pensions through the Arkansas Teacher Retirement System (ATRS), administered by the Arkansas Teacher Retirement System Board of Trustees. ATRS is a cost-sharing multiple-employer defined benefit pension plan that covers employees of schools and education-related agencies, including Arkansas School for the Blind, Arkansas School for the Deaf, Arkansas Activities Association, State Board of Education, regional education service cooperatives, ATRS, Arkansas Educational Television Commission, area vocational-technical schools, Arkansas Rehabilitation Services, enterprises privatized by a public school district, and educational nonprofit organizations. Benefit provisions are established by State law and can be amended only by the Arkansas General Assembly.

ATRS issues a publicly available financial report that includes financial statements and required supplementary information for ATRS. The report may be obtained by contacting:

(a) General Information about the Pension Plan (Continued)

Benefits Provided: The ATRS plan provides retirement, disability and death benefits, and annual adjustments to plan members and beneficiaries, as follows:

Members are eligible for full retirement benefits at age 60 with five or more years of credited service or at any age with 28 or more years of credited service. Members with 25 years of credited service who have not attained age 60 may receive an annuity reduced by 10/12 of 1% multiplied by the number of months by which the early retirement precedes the earlier of (1) completion of 28 years of credited service or (2) attainment of age 60. The normal retirement benefit, paid monthly, is determined based on (1) the member's final average salary and (2) the number of years of service. Disability retirement benefits are payable to members who are vested and demonstrate total and permanent incapacity to perform the duties of their position while in active employment. The disability annuity is computed in the same manner as the age and service annuity. Survivor benefits are payable to qualified survivors upon the death of an active, vested member. Eligible spouse survivors receive a survivor annuity that is based on the member's years of service credit prior to their death, and minor child survivors receive a percentage of the member's highest salary earned. A lump sum death benefit is provided for active and retired members with 10 years of actual service. A cost of living adjustment (COLA) is payable on July 1 of each year to retirees, certain survivors, and annuity beneficiaries who received monthly benefits for the previous 12 months. The COLA is determined by multiplying 100% of the member's base retirement annuity by 3%.

(b) Contributions

Arkansas Code Title 24 establishes the contribution requirements of active members and participating employers. Contribution rates for the plan are as follows:

The funding policy of ATRS provides for periodic employer contributions at statutorily established rates based on annual actuarial valuations. For the fiscal year ended June 30, 2020, the employer contribution rate was 14.25% of covered employee payroll.

Contributions to ATRS from Ozarka College were \$76,542 for the year ended June 30, 2020.

ATRS has contributory and noncontributory plans. The contributory plan has been in effect since the beginning of the plan. Contributory members of ATRS contribute 6.25% of their gross wages. The noncontributory plan began July 1, 1986. Effective July 1, 1999, all new members were automatically enrolled as contributory members. Active members as of July 1, 1999 were allowed to make an irrevocable choice between the contributory or noncontributory plan. Employee contributions are refundable if covered employment terminates before a monthly benefit is payable.

(c) Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, Ozarka College reported a liability of \$619,827 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability for the plan was determined by an actuarial valuation as of that date. Ozarka College's proportion of the net pension liability was based on current contributions of all participating employers. At June 30, 2019, the College's proportion was .0149% for ATRS.

(c) Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

For the year ended June 30, 2020, Ozarka College recognized pension expense of \$5,260. For the year ended June 30, 2020, Ozarka College reported deferred outflows of resources and deferred inflows of resources related to pensions as follows:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual		
experience	\$ 16,641	\$ 6,486
Net differences between projected and

of contributions	2,705	291,172
College contributions subsequent to the		
measurement date	76,542	
Total	\$188,014	\$341,322

\$76,542 reported as deferred outflows of resources related to pensions resulting from Ozarka College contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2021	\$(78,784)
2022	\$(101,482)
2023	\$(40,174)

Actuarial assumptions. The total pension liability in the actuarial valuation (as of the date noted below) was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	ATRS
Date of actuarial valuation	June 30, 2019
Inflation rate	2.75%
Salary increases	2.75% to 7.75%, including inflation
Investment rate of return	7.5%
Mortality rates	RP-2014 Healthy Annuitant, Disabled Annuitant, and Employee Mortality Tables were used for males and females. Mortality rates were adjusted using projection scale MP-2017 from 2006.
Actuarial experience study dates	July 1, 2010, through June 30, 2015

The long-term expected rate of return on pension plan investments of the ATRS plan was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return were adopted by the plan's trustees after considering input from the plan's investment consultant and actuary.

For each major asset class that is included in each pension plans' target asset allocation as of June 30, 2019, these best estimates are summarized in the following table:

	ATRS	
Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Total equity	53%	5.1%
Fixed income	15%	1.4%
Alternatives	5%	4.2%
Real assets	15%	5.0%
Private equity	12%	6.3%
Cash equivalents	0%	0.6%

NOTE 6: Retirement Plans (Continued)

Arkansas Public Employees Retirement System

Discount rate. The discount rate for the ATRS plan was determined as follows:

The single discount rate was based on the expected rate of return on pension plan investments of 7.5%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be 14% of payroll. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of College's proportionate share of the net pension liability to changes in the discount rate. The following presents the College's proportionate share of the net pension liability for the ATRS plan calculated using the discount rate stated above, as well as what Ozarka's proportionate share of net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	1% Decrease	Current discount	1% Increase
	6.5%	rate 7.5%	8.5%
ATRS – Current discount rate 7.50%	\$1,019,052	\$619,827	\$288,729

Pension plan fiduciary net position. Detailed information about the ATRS pension plan's fiduciary net position is available in the separately issued financial report of the plan.

Summary of Significant Accounting Policies

Pensions: For purposes of measuring net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net positions of the Arkansas Public Employees Retirement System (APERS) and additions to and deductions from APERS fiduciary net positions have been determined on the same basis as they are reported by APERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

(a) General Information about the Pension Plan

Plan descriptions: Eligible employees of Ozarka College are provided with pensions through Arkansas Public Employees Retirement System (APERS), administered by the Arkansas Public Employees Retirement System Board of Trustees. APERS is a cost-sharing multiple-employer defined benefit pension plan that covers all state employees who are not covered by another authorized plan, all county employees, municipal employees whose municipalities have elected coverage under this System, college and university employees, and certain non-teaching school employees. Benefits are also provided for governors, General Assembly members, state and county constitutional officers, and quasijudicial members. The benefit provisions offered by the APERS plan are established by State law and may be amended only by the Arkansas General Assembly.

(a) General Information about the Pension Plan (Continued)

APERS issues a publicly available financial report that includes financial statements and required supplementary information for APERS. The report may be obtained by contacting:

Arkansas Public Employees Retirement System 124 W. Capitol, Suite 400 Little Rock, AR 72201-3704 (501) 682-7800 http://www.apers.org/annualreports/index.php

Benefits Provided: The APERS plan provides retirement, disability and death benefits, and annual adjustments to plan members and beneficiaries, as follows:

The normal retirement benefit, paid on a monthly basis, is determined based on (1) the member's final average compensation (an average of the highest 36 months' earnings) and (2) the number of years of credited service. Retiree benefit increases are calculated each year on July 1 for the following 12 months. The redetermined amount is the amount of the benefit payable as of the immediately prceding July 1, increased by 3%. Members are eligible for full retirement benefits (1) at any age with 28 years of credited service; (2) at age 65 with five years of actual service, except for members of the General Assembly who must have 10 years of actual service if the member only has service as a member of the General Assembly; or (3) at age 55 with 35 years of credited service as an elected official or public safety member. Members are eligible for reduced benefits (1) at any age with at least 25 years but less than 28 years of actual service; or (2) at age 55 with five years of actual service. Members who are defined as a public safety member are eligible for a reduced benefit with five years of actual service if the member who are defined as a public safety member are eligible for a reduced benefit with five years of actual service if the member is within 10 years of normal retirement age.

(b) Contributions

Arkansas Code Title 24 establishes the contribution requirements of active members and participating employers. Contribution rates for the plan are as follows:

Contribution provisions applicable to the participating employers are established by the APERS' Board of Trustees and should be based on an independent actuary's determination of the rate required to fund the plan. The General Assembly, certain municipal and county elected officials, and certain agencies employing individuals in public safety positions must also remit additional amounts. For the fiscal year ended June 30, 2020, the employer contribution rates, as a percentage of active member payrolls, ranged from 4.00% to 38.99%. The College's required contribution rate was 15.32% for the year ended June 30, 2020. Contributions to APERS from Ozarka College were \$79,935 for the year ended June 30, 2020.

APERS consists of both a contributory plan and a noncontributory plan. The contributory plan has been in effect since the beginning of the plan and is available to all persons who became members prior to January 1, 1978. The noncontributory plan was created by Act 793 of 1977 and was effective January 1, 1978. It automatically applied to all members hired from January 1, 1978 to June 30, 2005. Act 2084 of 2005 requires that, beginning July 1, 2005, all new hires become contributory members and are required to contribute 5% of their earnings to APERS. All other noncontributory members are given the opportunity to become contributory.

During a member's participation in the APERS deferred retirement option plan (DROP), the employer continues to make contributions and the employee ceases to make contributions.

(c) Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, Ozarka College reported liabilities of \$528,044 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability for each plan was determined by an actuarial valuation as of that date. Ozarka College's proportion of the net pension liability was based on current contributions of all participating employers. At June 30, 2019, the State's proportion was .0219% for APERS.

For the year ended June 30, 2020, Ozarka College recognized pension expense of \$53,363. For the year ended June 30, 2020, Ozarka College reported deferred outflows of resources and deferred inflows of resources related to pensions as follows:

	Deferred Outflows	Deferred Inflows
	of Resources	of Resources
Differences between expected and		
actual experience	\$ 14,371	\$ 785
Changes of assumptions	28,661	20,299

\$79,935 reported as deferred outflows of resources related to pensions resulting from Ozarka College contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2021	\$(23,329)

Actuarial assumptions. The total pension liability in the actuarial valuation (as of the date noted below) was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	APERS
Date of actuarial valuation	June 30, 2019
Inflation rate	3.25%
Salary increases	3.25% - 9.85%, including inflation
Investment rate of return	7.15%
Mortality rates	RP-2014 weighted generational mortality tables for healthy annuitant, disability, or employee death in service as applicable. The tables applied credibility adjustments of 135% for males and 125% for females and were adjusted for fully generational mortality improvements using Scale MP-2017.
Actuarial experience study dates	July 1, 2012 through June 30, 2017

The long-term expected rate of return on pension plan investments was determined using a buildingblock method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected price inflation. Best estimates of arithmetic real rates of return for the 10-year period from 2019-2028 were based upon capital market assumptions provided by the plan investment consultant.

For each major asset class included in the plan's current asset allocation as of June 30, 2019, these best estimates are summarized in the following table:

APERS				
Asset Class	Target Allocation	Long-Term Expected Real Rate of Return		
Broad domestic equity	37.00%	6.20%		
International equity	24.00%	6.33%		
Real assets	16.00%	3.32%		
Absolute return	5.00%	3.56%		
Cash	18.00%	1.54%		

NOTE 6: Retirement Plans (Continued)

Arkansas Public Employees Retirement System (Continued)

Discount rate. The discount rate for each plan was determined as follows:

The single discount rate was based on the expected rate of return on pension plan investments of 7.15%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments.

Sensitivity of College's proportionate share of the net pension liability to changes in the discount rate. The following presents the College's proportionate share of the net pension liability for each plan calculated using the discount rate stated above, as well as what the State's proportionate share of net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	1% Decrease 6.15%	Current discount rate 7.15%	1% Increase 8.15%
APERS – Current			
discount rate 7.15%	\$846,323	\$528,044	\$265,450

Pension plan fiduciary net position. Detailed information about each pension plan's fiduciary net position is available in the separately issued financial report of each plan.

The total pension expense for both plans, recorded in personal services expenditures, for fiscal year ended June 30, 2020 was \$58,623. Individual plan pension expense was \$53,363 for APERS and \$5,260 for ATRS.

Alternative Retirement Plan – Variable Annuity Life Insurance Company

Plan Description. The College contributes to the Alternative Retirement Plan – Variable Annuity Life Insurance Company, a defined contribution plan. The plan is a 403(b) program as defined by Internal Revenue Service Code of 1986 as amended, and is administered by the Arkansas State Board of Career Education and Variable Annuity Life Insurance Company (VALIC). VALIC provides insurance policies and annuity contracts and when they are issued they become the property of the participant. Arkansas law authorizes participation in the plan.

Funding Policy. The participants' contributions are tax-sheltered and amount to a minimum of 6% of compensation. The College's contribution rate is 12%. Participants become vested after one year. The participants' and the College's contributions for the year ended June 30, 2020 were \$209,907 and \$340,423, respectively.

NOTE 7: Natural Classifications by Function

NOTE 8: Disaggregation of Receivable and Payable Balances

Accounts receivable from students were \$266,072 at June 30, 2020. This amount was reduced by an allowance for doubtful accounts of \$26,607.

Other receivables of \$296,701 consisted of \$100,944 due from sales and use tax, reimbursements of \$192,212 from various agencies for grants and contracts, and auxiliary enterprises and other receivables of \$3,545.

The accounts payable and accrued liabilities of \$53,881 at June 30, 2020, consisted of \$14,314 due to vendors and \$39,567 salaries and benefits payable.

NOTE 9: Sales and Use Tax

Effective October 2002, the voters of the City of Ash Flat approved the levy of a three-eighths of one percent sales and use tax. This sales tax will assist in the operation and maintenance and capital improvements of the facilities located at the Ash Flat campus.

On April 10, 2012, the voters of the City of Melbourne passed a one percent city sales tax of which threeeighths of one percent was designated for Ozarka College. This sales tax is designated for the construction and maintenance of buildings and improvements on the Melbourne Campus.

NOTE 10: Other Postemployment Benefits

Ozarka College implemented GASB Statement no. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, during fiscal year 2017-18. This statement replaces GASB no. 45. GASB Statement no. 75 established new standards for accounting and financial reporting of employer provided OPEB plans. This statement identifies methods and assumptions that are required to be used to project future benefit payments.

General Information about OPEB Plan:

Plan Description

Ozarka College offers a single-employer, defined benefit OPEB plan for all permanent benefits eligible employees. Employees who retire directly from active employment who have reached age 55 and their age plus years of service total 75 years with Ozarka College are eligible to participate in the Ozarka OPEB Plan. The College allows continued group health insurance coverage until the retiree reaches Medicare eligibility and contributes to health insurance premiums (individual or family coverage) for qualified employees until the retiree is 65 years of age.

Employees Covered by Benefit Terms

At June 30, 2020, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payment Active employees

Total OPEB Liability

Ozarka College's total OPEB liability of \$812,235 was measured as of June 30, 2020, and was determined by an actuarial valuation as of June 30, 2020. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement no.75.

Actuarial Assumptions and other input

The total OPEB liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2020, the College recognized an OPEB expense of \$62,376. At June 30, 2020, the College reported deferred outflows/(inflows) of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience		\$24,727
Changes of assumptions	\$40,803	
Total	\$ 40,803	\$24,727

The amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

NOTE 11: Contractual Obligations

The College was contractually obligated for the following at June 30, 2020:

Operating Leases

In September 20, 2017, the College began leasing 11 Canon IR Advance 4535 copiers (6 at the Melbourne Campus, 2 at the Sharp County Center, 2 at the Stone County Center, and 1 at the Fulton County Center). In addition, the College also began leasing a Canon IR Advance C5200 copier for the Melbourne Campus. Copier lease terms are for three years and are expected to be renewed at the end of the lease agreement. The College has no ownership of these items at the end of the lease agreement.

The future minimum rental payments for the remaining fiscal years are: \$10,988

Fiscal Year Ending June 30,	Amount
2021	9,575
2022	1,413
	\$ 10.988

Rental payments for the operating leases described above were approximately \$21,348 for the year ended June 30, 2020.

The College began leasing airplanes for use in the aviation program during the year. The leases are for a one-year term and have varying execution dates. The lease amounts are calculated based on an hourly rate for a monthly minimum number of Hobbs hours.

The future minimum rental payments for the remaining fiscal years are: \$11,662

Aircraft	Fiscal Year Ending June 30,	Amount
N65994	2021	\$ <u>11,662</u>

Rental payments for the operating lease described above were approximately \$8,330 for the year ended June 30, 2020.

NOTE 12: Pledged Revenues

The College has pledged future tuition and fee revenue to repay \$6,200,000 in tuition and fee revenue bonds issued from February 1, 2013 to September 1, 2015. The proceeds of the 2013 bonds provided financing for the construction of a new Student Services Center on the Melbourne Campus and other capital improvements. Proceeds from the 2015 bonds provided financing for the construction of a new educational facility in Stone County and refunding of bonds issued in 2002 and 2009. The bonds are payable solely from tuition and fee revenues and are payable through December 2042. Total principal and interest remaining to be paid on the bonds is \$7,116,037. Principal and interest paid for the current year and total tuition and fee revenues were \$375,557 and \$4,104,383 respectively. The percentage of revenues pledged for the year ended June 30, 2020 was 9.15%

NOTE 13: Risk Management

The College is exposed to various risks of loss related to torts, theft of, damage to and destructions of assets; errors and omissions; injuries to employees; and natural disasters.

The College carries commercial insurance for directors or officers covering legal judgments and settlements. The College also carries commercial insurance for students enrolled in health related programs covering student professional liabilities, and aircraft liability coverage. The College pays annual premiums for this coverage. Settled claims have not exceeded this commercial coverage in the past three fiscal years. There were no significant reductions in insurance coverage from the prior year in the major categories of risk.

The College participates in the Arkansas Public Employees Claims Division – Workers' Compensation Program under the Arkansas Department of Insurance. The program is responsible for obtaining and administering workers' compensation insurance coverage for its members, as well as obtaining reinsurance coverage for those claims that exceed the standard policy limits. In its administrative capacity, the Division is responsible for monitoring, negotiating, and settling claims that have been filed on behalf of and against the College. The College contributes quarterly to this program.

The College participates in the Arkansas Multi-Agency Insurance Trust (AMAIT) for insurance coverage for property and vehicles. In its administrative capacity, AMAIT is responsible for monitoring, negotiating, and settling claims that have been filed against its members. The College pays annual premiums for its buildings, contents, and vehicles coverage.

The College participates in the Arkansas Fidelity Bond Trust Fund administered by the Governmental Bonding Board. This program provides coverage for actual losses sustained by its members through fraudulent or dishonest acts committed by officials or employees. Each loss is limited to \$300,000 with a \$2,500 deductible. The Department of Finance and Administration withholds the premium from the College's State Treasury funds.

NOTE 14: Related-Party Transaction

The College maintained a bank balance of \$3,430,926 and an outstanding loan balance of \$336,934 with FNBC at June 30, 2020. A member of the College's Board of Trustees is the Community President for the Melbourne and Batesville branches.

NOTE 15: Subsequent Events

On March 11, 2020, the Governor of Arkansas issued Executive Order 20-03 declaring an emergency and ordered the Arkansas Department of Health to take action to prevent the spread of coronavirus disease 2019 (COVID-19). The extent of the impact of COVID-19 on our financial statements for future reporting periods will depend on certain developments, including the duration and speed of the outbreak and revenue collections – all of which are uncertain and cannot be predicted. The financial impact of COVID-19 to Ozarka College is uncertain as of the audit report date.

In September of 2020, the Ozarka College was notified that we had received the Ozarka Regional Workforce Opportunity for Rural Communities Grant in the amount of \$1,472,857. The grant will provide funding for personnel, renovation/construction and equipment costs for a welding laboratory, industrial maintenance equipment, and to provide training for industry certifications and testing.

On January 19, 2021, the College closed the Series 2021 Student Tuition and Fee Revenue Refunding Bonds. The sales proceeds of the bonds were calculated as follows:

Par Amount of Bonds:	\$ 5,065,000
Less: Net Original Issue Discount	(31,480)
Less: Underwriter's Discount	(68,377)
Total Purchase Price	\$ 4,965,143

The proceeds of the bonds were used to retire the Series 2013 and 2015 bonds and the funds were disbursed in the following manner:

Series 2015 Payoff	\$ 2,387,970
Series 2013 Payoff	2,353,825
Debt Service Reserve Fund	180,056
Cost of Issuance Fund	43,292
Total Uses of Funds	\$ 4,965,143

In February 2021 the firm of Wittenburg Delony and Davidson Architects was selected for the Welding Lab Renovation at Ash Flat Tech Center. The plans have not been finalized nor has a general contractor been selected for the project at the present time.

The College has received grant awards of \$2,670,355 from the Higher Education Emergency Relief Fund (HEERF) for both institutional use and for aid to students. These funds will be expended during fiscal years 2021 and 2022.

Other Postemployment Benefits

Ozarka College implemented GASB Statement no. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, during fiscal year 2017-18. This statement replaces GASB no. 45. GASB Statement no. 75 established new standards for accounting and financial reporting of employer provided OPEB plans. This statement identifies methods and assumptions that are required to be used to project future benefit payments.
